WORK PREFERENCE

Istanbul · Remote · Open to relocation

Summary

Software engineer with experience building SaaS platforms, AI systems, and full-stack products. Currently CTO at AkwadX Technologies and co-founder of Leen (formerly Muazaf), an AI operating environment in active development. Focused on architecture, backend systems, AI integration, and product delivery across fintech, education, and SME operations.

Experience

The AkwadX Technologies and Leen roles are separate, current professional engagements.

Chief Technology Officer

2024 – PRESENT

AkwadX Technologies · Istanbul

Technology vision and architecture for enterprise digital platforms and AI systems — scalable SaaS design, backend architecture, engineering coordination, and technical strategy.

Co-Founder and CTO

2025 - PRESENT

Leen (formerly Muazaf)

Co-found and architect an AI operating environment for workflows, agents, memory, and integrations. Platform in active development — see the flagship case study for scope and status.

Full Stack Software Developer

2022 - 2024

AkwadX Technologies / Freelance

Full-stack applications across fintech, education, and hospitality — including school management SaaS platforms, inventory systems for SMEs, and hotel management software.

Selected work

Leen — AI Operating System

CO-FOUNDER AND CTO · 2025 - PRESENT

In active development. Scope, architecture, and contribution are documented in the flagship engineering publication.
